

Onsite Services

Maximize efficiency in the removal and transportation of your assets by leveraging Dynamic's logistics expertise.

STANDARD LOGISTICS PROCESS

Dynamic utilizes GPS tracking for both our own fleet and third-party carriers to service the United States and globally. We ensure all transportation aligns with R2v3 and NAID AAA certification standards.

WHITE GLOVE PACKAGING

White Glove Packaging ensures the highest level of care and protection for sensitive or high-value IT assets. Technicians arrive on-site with protective, eco-friendly packaging materials. Devices are carefully packed, labeled, and documented for transport or storage. All activity is tracked and reported to the client in real time.

SERVICE OPTIONS

- Anti-static foam
- Tamper-evident containers
- Reusable crates
- On-site packaging for relocation, resale, or secure ITAD

DESKSIDE DECOMMISSIONING

Our expert team is trained to decommission data-bearing devices in addition to monitors, keyboards, and other miscellaneous electronics. After removal, the team follows packaging guidelines and loads for transport directly to our processing facilities.

SERVICE OPTIONS

- Dynamic owned or national carriers
- Bonded coverage
- White glove packaging
- Custom pallets or crates

Optimize your asset removal.

Let Dynamics team of onsite experts execute your project.
